# Media Mentors

Do you know a youth that could benefit from participating in a service learning initiative?

**YMCA of  
Newfoundland and Labrador**

# Mentoring deepens learning.

## Who

Youth ages 15-30 in the Avalon Peninsula, Burin Peninsula, Central Newfoundland or the Labrador Region.

No previous experience is required. Participants will be given all the tools that they need.

## What

The YMCA Media Mentors project, in partnership with the Canada Service Corps, will support youth in co-creating community service projects. Youth will learn new life and work skills while being supported in creating unique individual projects that will assist seniors in accessing and using technology. Participants will be

given the skills, framework and support necessary to develop these projects. While growing their own career development and social participation, they will be positively impacting the lives of seniors in their region.

## When

Through the generous funding of the Canada Service Corps, the Media Mentors project is presently being offered in collaboration with the YMCA of Newfoundland and Labrador.

### Program Benefits:

- Career development
- Social participation
- Social media training
- Workplace sensitivity training
- Standard First Aid training
- Project planning skills
- Problem-solving skill development
- Time management skills
- Access to YMCA resources and future programs
